

**Alan Sharkey**  
**Senior Project Director**

Alan Sharkey is the Project Director of ZeoGas LLC, a development-stage energy company building a portfolio of manufacturing plants converting natural gas into liquid fuels. Mr. Sharkey has over 25 years' experience as a Senior Project Manager/Director in engineering, constructing and commissioning.

Over the last ten years, Mr. Sharkey has focused on Project Management, including overall direction and coordination of Project Team of engineers and designers of all disciplines as well as direct management of construction and commissioning activities.

He previously served as Project Director for some of Shell's largest, most demanding and technically challenging EPC projects around the world, specifically in West Africa and the Middle East. He has managed projects from conception to CSU and handover to operations. Projects have included brownfield expansions and Greenfield installations of Oil and Gas and Pharmaceutical Facilities. Mr. Sharkey's experience includes extensive technical and commercial contract negotiations.

Mr. Sharkey is an Instrument Engineer hailing from the United Kingdom, and now resides with his family in Houston, Texas.
